Guaranteed Values At Lambert's.

The mere size of the Lambert Stock, the variety of all articles of jewelry included in it, is only half the story. The other half is summed up in one word quality. Inasmuch as we are practical jewelers, familiar with every detail of the business, we buy with critical discrimination what we do not make ourselves, and, as the whole city knows, our establishment includes a well equipped factory from which additions come constantly to the assortments in our salesroom.

We have a spacious store, but there is not a square inch of room in it for an article we cannot guarantee, and our guarantee means that a rigid inspection has been made of everything. Another witness to our reliability, for gold jewelry sold at Lambert's is that every article must stand the test of the United States Assay

Since you pay us only one moderate profit (we never deal with middlemen), our prices are necessarily far below those of firms doing business in the old way.

Why Diamond Buyers Come to Us.

Our system is brightly illustrated by diamond rings. You save 1 money and insure satisfaction by buying them of us because every stone is especially selected and imported for us, and the solid gold hand-made mountings come from our own factory. Confidence in

the seller of diamonds is the basis of every advantageous transaction. Unless we deserved the trust reposed in us, our diamond business could never have grown as it has. Call and see for yourself.
